

YOUR MP4-12C

Nothing drives like a McLaren because nothing has been designed like a McLaren.

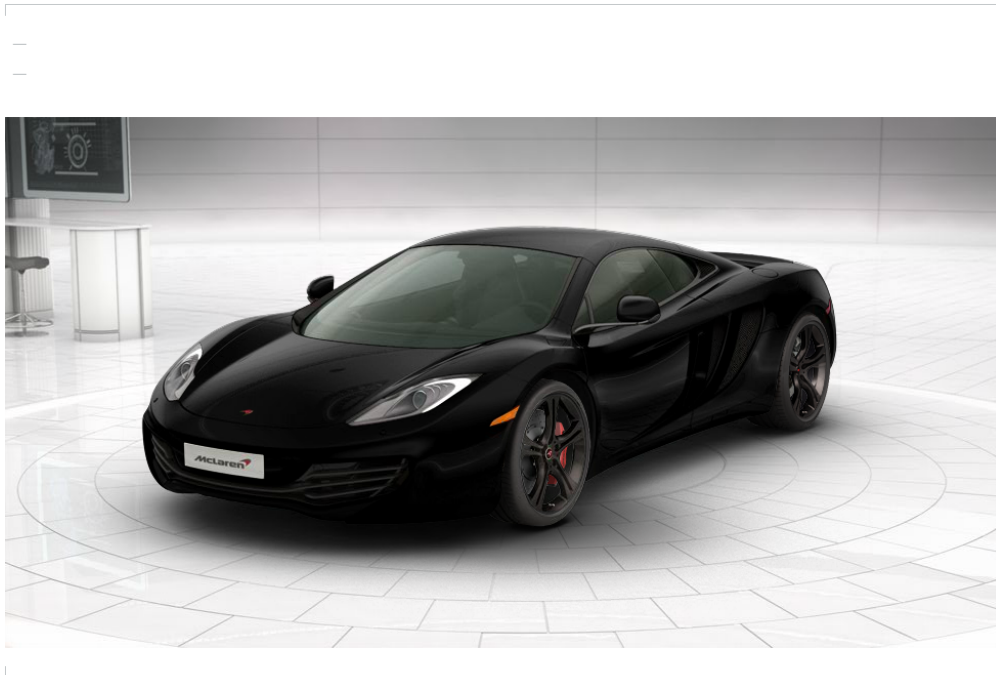

Because we started from a clean sheet of paper with no carry-over parts or technologies to cloud our vision, we were able to put convention to one side and innovate, from the inside out. Every 12C switch, dial and component is bespoke to McLaren specification, meeting our own obsessively high standards.

The MP4-12C is the first car in its class to offer a one-piece, hollow carbon fibre MonoCell at its core: the perfect light weight partner to the compact McLaren M838T V8 twin-turbocharged 3.8 litre engine. Both are a result of our obsession with weight and contribute to the 12C's exceptional out-and-out performance as well as quality, safety, comfort, and efficiency levels.

USING INTELLIGENT DESIGN, WE HAVE
AVOIDED TRADITIONAL COMPROMISES TO
CREATE AN 'AND' CAR.

THE 12C IS FAST AND EFFICIENT.
LIGHT WEIGHT AND STRONG.
COMFORTABLE AND EXHILARATING.
